

TECHNOLOGY & ENGINEERING TEACHER EDUCATION
DIRECTORY **2019-2020**
58th Edition

Institutions, Degree Data, and Personnel

Including program listings for technology teacher education,
engineering teacher education, and industrial teacher education.

Sponsored by:

**The Council on Technology and
Engineering Teacher Education**

Editor
George E. Rogers

Preface

It has my pleasure to compile and edit the *Technology and Engineering Teacher Education Directory* for the past eleven years. This 58th Edition of the *Directory* will mark my final edition to serve as editor. The compiling of data and publication of the *Directory* has been made possible by the support of the Council on Technology and Engineering Teacher Education (especially its executive committees), institutional program coordinators, and John F. Flanagan of Goodheart-Wilcox. The profession is indebted to Goodheart-Wilcox Publisher for its continued funding of the publication of this *Directory*. For the 59th Edition of the *Directory*, the editorship will be assumed by Kurt Helgeson and his team at St. Cloud State University.

Professionals interested in becoming members of Council on Technology and Engineering Teacher Education should visit the Council's website at <http://www.ctete.org/> for information. Membership and participation in Council can help promote the further development and growth of technology and engineering teacher education.

I sincerely hope the *Directory's* presentation of institutional, enrollment, and graduation data has been beneficial to you in your professional endeavors. I would like to thank the Council for providing me the opportunity to serve our profession for the past eleven years as Editor of the *Technology and Engineering Teacher Education Directory*. It is now time to enjoy the wilderness of Elk Mountain and cruising in the Fairlane.

Explanatory Notes

The *Directory* is arranged alphabetically, first as to the states; secondly by institutions within each state; and finally the personnel in each program.

Institutions were asked only to include faculty who spend the majority of their assignment in the area of engineering, technology, or industrial teacher education. Institutions were also asked only to include enrollment and graduation data for engineering, technology, and industrial teacher education majors. Data do not include general career and technical education majors.

Data are presented in the following pattern:

1. The full official name of the institution.
2. The full official name of the college where the teacher education program is located.
3. The full official name of the department where the teacher education program is located.
4. The mailing address, telephone number, and website of the teacher education program.
5. The contact information for the teacher education program coordinator.
6. The number of graduate assistantships offered for the 2019 - 2020 academic year.
7. The degrees awarded from July 1, 2018 through June 30, 2019.
8. The current student enrollment for the 2019 - 2020 academic year.
9. Teacher education program personnel listed by name, rank, highest degree earned, and teaching/administrative area.
10. Teacher education program personnel contact information including email and telephone number.
